each child as a
unique & precious
gift entrusted
into our care... ★

Nurturing atmosphere

where your child will blossom

At Chai Early Childhood Center we see each child as a unique and precious gift entrusted into our care. At Chai, emphasis is placed on the individual child and on encouraging each child's innate inquisitiveness and thirst for knowledge. We seek to create a **stimulating and enriching educational environment** where

small classes and high student-teacher ratios ensure each child receives individual and caring attention. Our mission is to provide a warm and nurturing environment where children are introduced to Jewish values and traditions and **discover the joys of learning.** ★

Our warm & caring staff
care for each child
individually

Engaging curriculum

so that your child will love learning

The school is devoted to helping children learn socialization skills, building their self-confidence and teaching them the preliminary skills to explore and experience the world independently from their parents. In addition, we seek to **ignite a spark in each child to lay claim to his Jewish heritage** and commit him or her to a lifetime passion for learning. Our

curriculum is based largely on students' interests and curiosities. Our children learn science, math, social studies, literacy, the arts, Judaic studies, and moral values through an integrated approach to education. Our goal is to nurture each child's personal journey towards social, emotional, and educational growth. This gives us the ability

to inspire them to become **lifelong learners with an insatiable quest for knowledge** and understanding of their world. ★

Each of our teachers is a highly experienced and professional educator, whose commitment to early childhood education is truly an avocation. Our teachers bring a unique blend of professional skills and personal experience to their classrooms and share a genuine passion for the care and education of our children. ★
